

Download Apollo Gds Formats Guide

Description: A comprehensive list of Apollo formats. Strongly recommended as a companion to the Comprehensive and Conversion courses. This book lists all formats taught in the VIASINC Apollo courses or available in the Apollo emulator. The new Decoder Suite now provides customisable layouts of the information based on Office ID, Account Number or Customer Profile. Introduce your company logo and matching corporate colours, remove or rearrange information, automatically append Terms and Conditions, Email signatures and much more. Travel Technologies role is responsible for overseeing the GDS and Mid Office support teams and providing support to agents and internal departments that require assistance in resolving issues that could affect multiple points of the support structure within Agency Services and Operations. TIMH/1. Display Health information for a passenger whose destination is the offpoint of segment 1. TIMH/1-3. Display Health information for a passenger boarding at the boardpoint of segment 1 and transitting the off points of segments 1 and 2, whose destination is the offpoint of segment 3
