The CompTIA A+ certification is a great starting point for a career in IT. This credential is for entry-level IT technicians involved with preventative maintenance, basic networking, installation, troubleshooting, communication and professionalism. One question I am asked seemingly all the time by students is "Which do you think is a better fit for me in my certification studies: instructor-led training or computer-based training ?" In this essay I will speak from my experience and describe some pros and cons to each learning method.
