Bacteria

Interactive Reading Assign Chapter 40 of the Holt Biology Guided Audio CD Program to help students achieve greater success in reading the chapter. Auditory Genome editing, or genome engineering, is a type of genetic engineering in which DNA is inserted, deleted, modified or replaced in the genome of a living organism. A few years ago, I was asked to explain lactic acid fermentation in sourdough, and the difference between homo- and heterofermentation. Not an easy task, partly because I wasn't satisfied that I knew enough, or that I could reconcile what I was reading in bread-baking books with what I had learned in school.
