

# Download Mufon Field Investigators Manual

Purchase a hard copy of the MUFON Field Investigator's manual or subscribe to the online version by visiting the MUFON Store. To ensure that only competent investigators conduct witness interviews, on-site investigations, and collateral contacts with public agencies and others, formal Field Investigator training is essential. The Mutual UFO Network (MUFON) is a US-based non-profit organization based in the United States composed of civilian volunteers who study alleged UFO sightings. So how many fields does the database have? Or is it just region, date and a long report that relies on search terms. Be interesting to know what fields they have chosen — what data points they feel important enough to isolate into its own field. Raymond Eveleth Fowler (born November 11, 1933, in Salem, Massachusetts) is an American author and UFO researcher. He received a B.A. degree in liberal arts from Gordon College (Massachusetts).
