

Download When Doctors Say No The Battleground Of Medical Futility Medical Ethics

InformationWeek.com: News analysis and commentary on information technology trends, including cloud computing, DevOps, data analytics, IT leadership, cybersecurity, and IT infrastructure. The following op-ed by Hanne Nabintu Herland concerns the Norwegian government's persistent soft spot for the Palestinians. It was originally published in Aftenposten, Norway's largest newspaper, on January 15th, 2013, and has been translated by the author. Conscience is a cognitive process that elicits emotion and rational associations based on an individual's moral philosophy or value system. Conscience stands in contrast to elicited emotion or thought due to associations based on immediate sensory perceptions and reflexive responses, as in sympathetic central nervous system responses. The best opinions, comments and analysis from The Telegraph.
